EXCLUSIVE DISTRIBUTOR IN THE UNITED STATES AND CANADA

September 5, 1972

Dear Dealer:

We have received several inquiries from various dealers concerning the exchange program on Moto Guzzi five-speed transmissions. Some transmissions have already been exchanged with the latest type gearbox (13991560/3) and the owners have received our letters advising them to see their dealer to have their machines repaired.

Naturally, if the latest type gearbox has already been installed in an owner's machine, it is completely unnecessary to make the exchange again.

As a result, if the transmission in your customer's machine is stamped with the number "3", either near the drain plug or near the speedometer drive gear (as indicated in the illustration below), this means that this gearbox is the latest type containing all modifications and does not require replacement.

If you have any questions regarding this bulletin, or any other phase of the transmission exchange program, please do not hesitate to contact us.

Very truly yours,

PREMIER MOTOR CORPORATION

Number "3" stamped in either of these two locations designates latest type transmission.
